

## System Administrator

Come join the Infrastructure team at RStor and help us scale across the globe.

RStor was founded with the mission to connect the world's computing resources. The RStorMulticloud Platform™ is the first to aggregate and automate compute resources from private data centers, public cloud providers, and trusted supercomputing centers on a next generation networking fabric. Headquartered in Saratoga, CA, RStor has raised \$45 million in a series A funding round, led by Cisco Investments. Learn more at <https://rstor.io/>.

At RStor we are building a culture that emphasizes open-minded, collaborative teamwork, and an ability to take responsibility and rise to the challenges of creating major shifts in cloud technology. A demonstrated willingness to step out of your comfort zone and solve problems in new, inventive ways is a must. We're looking for independent thinkers who are comfortable contributing to the larger goals of the team, and nimble enough to adapt to market and data-driven changes.

If you're creative, driven and passionate about applying advanced technology to solve some of the world's biggest and most important problems, you'll be among friends at RStor

### Responsibilities:

- Provide technical support for the interaction of hardware and software in our production environment
- Manage the configuration, operation, and maintenance of our standard production Linux based operating system, including DNS, DHCP, etc.
- Support software engineers with architecture and deployment planning
- Troubleshoot, analyze, and isolate reported issues
- Update system architecture design and processes as required for enhanced functionality and issue resolution
- Participates in Site Operations activities as necessary

### Job Qualifications:

- Degree and technical background in Computer Science, Computer Engineering, or Information Systems
- 8-10 years related job experience
- Familiarity with server platform internals, Linux operating system internals, scripting, and relevant command line tools

Please send resume to [careers@rstor.io](mailto:careers@rstor.io) and the Title of this position in the Subject of your email.
